### UNIFIED BRANDS ACQUIRES ASSETS OF INTEK

JACKSON, MS – (August 17, 2010) – Unified Brands announced today it has acquired the assets of Intek Manufacturing LLC, a privately held company based in Fort Wayne, Indiana, that specializes in the manufacturing of high performing, energy efficient boilerless steamer ovens serving various segments of the foodservice equipment industry. Financial terms of the transaction were not disclosed.

According to Bill Strenglis, President of Unified Brands, "We are excited to conclude the acquisition of the assets of Intek. It further expands our industry-leading product offering of steamer ovens for any foodservice application. Intek steamer ovens have proven reliability and outstanding performance coupled with Energy Star efficiency, and will accelerate our strategic initiative of gaining market share with our channel partners in our targeted market segments."

Chip Tippmann, President of Intek, agrees. "There comes a time in a company's journey when it reaches a crossroad. We are well known in the K-12 school and national chain markets, but to expand our market reach, a significant influx of resources was going to be required. Unified Brands provides that, and more. This is a great opportunity for Intek and I'm very pleased our product offering can grow with Unified Brands." A cross-company integration team designed for seamless transition for both customers and employees is in place.

Unified Brands and its Groen, Randell, Avtec and A la Cart product lines have industry-leading positions in primary cooking equipment, cook-chill food production and meal delivery systems, custom fabrication, foodservice refrigeration, ventilation, and air-handling systems. Unified Brands is one of the 35 operating units of Dover Corporation (NYSE: DOV) and is part of the Dover Engineered Systems Segment. Unified Brands is headquartered in Jackson, Mississippi, and operates two manufacturing facilities in Weidman, Michigan and Jackson, Mississippi.
